THE COURSE

This course is designed for all construction workers carrying out work on building sites. There is no specific job role for this unit of competence. Due to the nature of the construction industry, many contractors and professions may be involved at any given time with a site.

Example jobs requiring a WhiteCard

<table>
<thead>
<tr>
<th>Engineer</th>
<th>Foreman</th>
</tr>

- Certificate III and IV in Customer Contact
- Certificate III and IV in Hospitality
- Certificate III in Warehouse Operations
- Food Safety Supervisor
- Construction Induction Card (White Card)
- RSA & RCG

Why is it Required?

To work on a construction site in Australia, it is compulsory for everyone to hold a current Occupation Health & Safety Certificate, commonly known as a ‘White Card’.

The White Card is a requirement under OH&S Codes of Practice across most jurisdictions. It allows individuals to access or be present on construction sites. In NSW, the penalty for individuals being ‘on-site’ without the White Card carries a maximum penalty of 100 penalty units ($11,000).
